OUR MISSION IS TO EXCEED OUR CUSTOMER'S EXPECTATIONS IN THE PROVISION OF INNOVATIVE SECURITY SERVICES, PRODUCTS AND INSTALLATION'S TO THE HIGHEST STANDARDS

ABOUT US

04

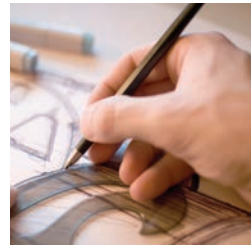

05

We are experts in school security and safeguarding: a well established independent family business that for over **20 years** has been **improving the security** for schools, colleges and academies.

No one is better placed to help you create a **safer, securer environment.**

PRODUCT & SERVICES

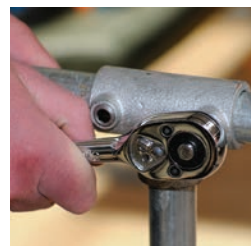

DESIGN

We offer an advanced design service dedicated to your project bringing together a unique cohesion of all safety, technical and aesthetic considerations to ensure that the solutions proposed are sympathetically blended in to the existing environments without any compromise on the security of your pupils. We work with the school to achieve the best solution and produce drawings for approval prior to manufacture.

MANUFACTURE

We offer a full inhouse manufacturing service giving our clients the options and flexibility required to achieve our aim of 100% project satisfaction. Made to measure gates and railings are fabricated to highest standards and to suit the school requirements.

INSTALL

Installations are carried out by our highly trained operatives and to an industry leading standard causing minimal disturbance to the school. We ensure that comprehensive method statements and risk assessments are carried out for each project and presented on commencement of site works.

MAINTAIN

We offer a maintenance service for all our products both for peace of mind and to comply with regulations where required. We provide fully comprehensive service contracts and non binding service agreements if required.

5 REASONS TO CHOOSE US

1

TRUSTWORTHY

In the sensitive security environment of educational premises we ensure our surveyors, installation teams and indeed all our staff are DBS checked and have the relevant training, instruction and skills to deliver the job with the minimal disruption.

2

QUALITY PRODUCTS

Our products are hand crafted to the highest standard and rigorously inspected prior to despatch from our workshops. All installations are rigorously tested prior to leaving site ensuring 100% product satisfaction with every project.

3

FLEXIBILITY

We offer full flexibility throughout the whole process of design, manufacture and install as we work to accommodate our clients time constraints and individual specialist requirements to provide a tailored security package every time.

4

RELIABILITY

We offer consistency throughout the whole project by assigning a project manager and key members of staff to each project so that at any point, in any project, our client can make contact and discuss any alterations with a dedicated support team for their particular project. Our automatic gates are amongst the most reliable and durable available.

5

CLIENT CARE

We value your custom... we know you don't have to buy from us so we treat every customer like our only customer and offer the same excellent level of care and aftercare to each and every one. We offer excellent after sales service and comprehensive ongoing maintenance packages.

TYPES

- Palisade
- Mesh
- Basic railing
- Decorative designs
- Bespoke
- Bow top gates

OPTIONS

- Biometrics (finger print readers)
- Video options
- Integration with MIS systems (i.e. SIMS)
- Fire alarm integration
- Complete integrated solutions
- Printer control
- Fire and evacuation reports
- CCTV options
- Remote control
- Multiple site management

1. Card and token readers
2. Video intercom
3. Door entry control
4. PC based access control

“ Harling Security installed an access control system for our school. We are very pleased with the work carried out and we now feel fully assured that our school is a very safe and secure environment for our children. We fully recommend any school looking to install an access control system should consider using Harling Security. ”

MRS WALIA, HEAD TEACHER

We can provide a wide range of access control systems for doors, gates and any other automated entrances.

We can provide controls to suit the schools requirements. Our systems can integrate with the schools MIS systems, such as SIMS and most other common systems. The systems can be expanded to control all doors and gates and can be used for visitor management as well as clocking in systems for staff and students.

We can provide complete integrated and bespoke solutions to secure and manage the entire school site.

DECORATIVE RAILINGS & GATES

APPLICATIONS

- Traffic control
- Vehicle and pedestrian control
- Security
- Main entrances
- Safety
- Boundaries
- Listed buildings

OPTIONS

- Manual gates
- Automatic gates
- Powder coated to any standard colour
- Standard designs
- Bespoke designs
- School names and logos
- Brick walls and building work to suit

1. Decorative gate
2. Gate with laser cut design
3. Arch with school crest and name
4. Decorative grey railings

“ It has been a pleasure doing business with Harling Security Solutions. From an idea to the finished product, a perfect entrance for our academy. Thank you. ”

WOOD END ACADEMY

We can design, manufacture and install a range of decorative gates and railings, from a selection of our range of standard designs, or we can work with the school to design and make a gate and railings designed exactly to what you want, which can incorporate the school logo or name if required. The gates can then be manually or electrically operated.

An impressive looking set of gates and railings can transform the entrance and the entire look of the school, whilst improving security.

21

“ I write to you to thank you for your prompt service in installing this system. We would have no hesitation in using your company again. ”

S-PARKIN, SCHOOL
BUSINESS MANAGER

We offer a wide range of doors, ranging from automatic main entrance doors to steel security doors for bin stores or storage areas. The automatic doors can be controlled from our wide range of access control systems or the schools existing systems. The doors can be steel or aluminium with a range of glazing options and performance ratings to suit most applications.

With our range of entrance doors we can install a complete new entrance, improving the security and appearance of the school.

All systems are fully tested and commissioned upon completion.

- Mesh screens
- Vandal protection
- Fire rated

1. Roller shutter for window protection
2. Roller shutter to main entrance
3. Yellow lockers
4. Window grilles

“ The work was carried out in a very professional manner, installed in the time scale required and to the exact specification. I would highly recommend using Harling Security. ”

CHACE COMMUNITY SCHOOL

We can manufacture, supply and install a wide range of standard and bespoke roller shutters, grilles and cages. The roller shutters and grilles are made to measure and can be powder coated to any colour.

All grilles and shutters can be integrated with new or existing access control and can be fitted with electric locking to greatly improve school security as well as the appearance of the school entrance.

Assessed to ISO 9001
Cert.LPCB ref. 1668

SHELTERS & CANOPIES

APPLICATIONS

- Shelters
- Canopies
- Covered play areas
- Bike racks
- Sheltered walkways
- Lean-to's
- Bin stores
- Covered entrances
- Bike stores

OPTIONS

- Powder coated to any colour
- Guttering systems and drainage options
- Enclosed sides
- Range of bike rack sizes
- Bolt down or concreted in
- Bespoke solutions

1. Bin store
2. Covered eating area
3. Bike rack
4. Secure bike storage

“ The works have greatly enhanced the exterior of our school, and we have received many positive comments, not only from staff, but also from the general public. ”

HEADMASTER

We can install a wide range of shelters and canopies of many shapes and sizes. All canopies and shelters are made to measure and can be fitted with gutters and drainage to channel the water away to create a dry and safe area.

We can also install a wide range of bike racks to the shelters to create a cycle store.

We can supply and install standard and made to measure bin store areas amongst other bespoke solutions.

SURFACING & GROUNDWORKS

PRODUCTS

- Tarmac works
- Drainage
- Parking matting
- Line marking
- Brickwork and retaining walls
- Kerbing
- Astroturf
- Complete MUGA areas

APPLICATIONS

- Tarmac works and re-surfacing
- MUGA pitches
- Astroturf pitches
- New parking areas
- Car park extensions
- General groundworks
- New entrance roadways
- Associated landscaping
- Associated drainage systems
- Retaining walls and kerbing

1. Groundworks
2. Muga pitches
3. Astro turf pitch
4. Brick retaining wall

“ The standard of work and the professionalism of your whole team were exemplary. I would be happy to recommend your company to other schools and businesses. ”

ENFIELD GRAMMAR SCHOOL

We offer tarmac and re-surfacing works, as well as installing new parking areas and new AstroTurf and MUGA areas.

Here at Harling Security we carry out a lot of groundworks and surfacing with some of our external security products.

Trenching for automatic gates and fencing foundations as well as installing new entrance driveways to schools are just some more of the services we are able to offer as standard.

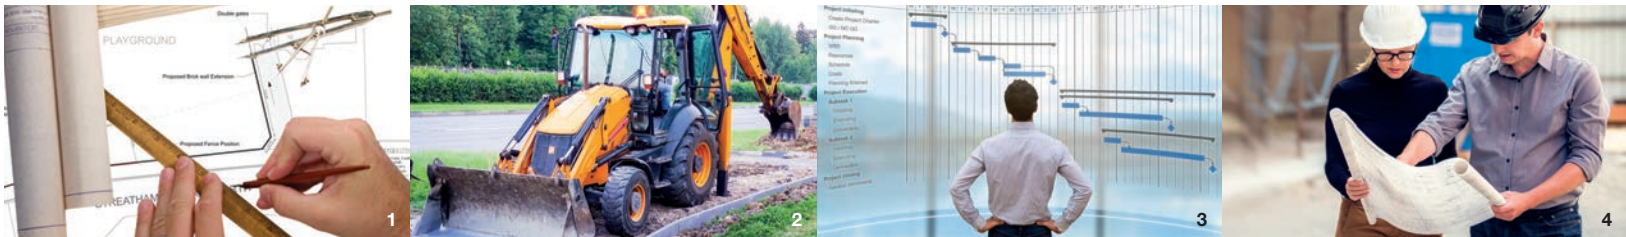

This has lead us to now carrying out groundworks, associated general building works and surfacing as one of our fastest growing services.

PROJECT MANAGEMENT

EXAMPLES

- Associated ground works
- Power supplies and cable runs
- Negotiating with local authorities and architects
- Design service and technical advice
- Drawings
- Co-ordinating of different trades onsite
- Associated landscaping
- Complete project managed by one company
- Planning permissions
- Safeguarding surveys

1. Drawings and planning
2. Excavations
3. Scheduling and planning
4. Project management

“ We would like to thank you for your wonderful and hassle free service. Harling Security undertaking the complete project took away all the stress. We would have no hesitation in recommending your company. ”

BUSINESS MANAGER

Our Project Management sector has become very popular as schools, colleges and academies experience our dedicated and professional service levels and come to expect the same for all their building and maintenance requirements.

If embarking on a project that involves building a brick wall that will have some railings or gates fitted to it – why not have it all done with the same company, rather than managing the interfacing of a number of companies, with one doing the power supply, one doing the foundations, one doing brickwork and a security company doing the gates.

We regularly undertake complete projects of this nature, providing a no hassle experience for the school, whilst fitting in to your budget.

SERVICING & MAINTENANCE

PRODUCTS

- Automatic gates
- Intercom systems
- Access control systems
- Automatic doors
- Turnstiles
- CCTV systems
- Barriers
- Bollards
- Parking revenue systems
- ANPR systems

31

“ We would highly recommend your products and services to others, and indeed already have done so. Thank you so much for the professional and courteous service that we have received from Harling Security. ”

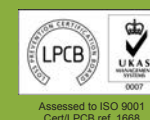

J. MUNCEY, HEAD TEACHER

As part of our ongoing service, we offer comprehensive servicing and maintenance packages. Our servicing helps to ensure that your systems are maintained in good working order and are maintained to meet all current regulations.

Our servicing packages ensure the school is covered from a legal and health and safety point of view as well as helping to prevent expensive repairs.

We can maintain all of the schools security systems if required (even if we didn't install them) to provide one point of contact for all your security requirements.

It is a legal requirement to properly maintain all automatic gates, barriers and doors.
